4. One Digital Way

Blueprint Team Process Framework

Delivering on critical health missions:

- Analogue to digital
- Sickness to prevention
- Shifting care to the community

Ensuring safe, secure and resilient systems

Unlocking system productivity of >£25Bn over the next five years

The public wants to use digital

3 in 4 people in England have the NHS App in their pocket - twice the volume of Netflix - and a million logins a day.

Found in 33.6 million pockets across England

Significant growth over 18 months in monthly figures
